

Organisation	Hazard/Risk	Name of Project	Description	Project Cost 2016-17 \$	Applicant contribution	NDRGS Funds sought	State funds Sought
Warrnambool City Council	Flood	North Warrnambool Floodplain Management Plan - post mitigation works, update plans	Works to implement the North Warrnambool Floodplain Management Plan	\$405,456	\$135,152	\$75,152	\$195,152
Ambulance Victoria	All Hazards	Pre-hospital Emergency Simulation Training	Provide an online, self-led electronic simulation platform to educate and test pre-hospital responders in mass casualty triage consistent with the State Health Emergency Response Plan.	\$791,000	\$541,000	\$250,000	
Country Fire Authority	All Hazards	School Curriculum Natural Hazard Resilience Package (SCNHRP)	To develop curriculum based resources and provide support to teachers in Victorian public (primary and secondary) schools to deliver education on risk awareness and resilience related to natural hazards.	\$317,900	\$222,000	\$95,900	
Department of Human Services and Department of Health	All Hazards	Community Services Climate Resilience Program	Disaster risk and resilience planning for the community health and human service agencies in Victoria.	\$284,909	\$159,909	\$125,000	
Southern Grampians and Glenelg Primary Care Partnership (SGGPCP) auspiced by Western District Health Service	All Hazards	Enhancing rural networks for community resilience	This project seeks to better understand formal and informal networks that underpin rural Victorian communities. This understanding can be then used to enhance the most effective networks, by sharing knowledge, collectively planning and ultimately building the capacity of communities to plan for and respond to natural disasters.	\$269,602	\$149,136	\$120,466	
Volunteering Victoria Inc.	All Hazards	Emergency Management Manager Development Program (EMSEV)	This project aims to recruit, train, support, deploy & debrief a workforce of skilled volunteer managers to manage spontaneous emergency volunteers during disaster recovery and relief.	\$267,000	\$17,000	\$250,000	
Volunteering Victoria Inc.	All Hazards	Victorian Spontaneous Emergency Volunteer Pilot Project (HelpOUT)	Establishment of a regional pilot of a spontaneous emergency volunteer management and deployment system. Will allow thousands of volunteers to be mobilised to assist with recovery from any disaster.	\$321,000	\$71,000	\$250,000	
University of Melbourne	All Hazards	Increasing Preparedness for Bushfires and Floods by Informing Residents of their Communities' Social Norms	Increases residents preparedness for bushfires and floods by informing them of their community's social norms (e.g. how other residents prepare for bushfires and floods.)	\$216,122	\$111,090	\$105,032	
City of Greater Bendigo	All Hazards	From vulnerable to resilient' - emergency preparedness in changing times.	Working together to strengthen both formal and informal support for personal emergency planning with vulnerable people, including people with disabilities. 2 Supporting rural communities to undertake inclusive community emergency planning.	\$121,280	\$61,280	\$60,000	
Moiria Shire Council	Flood	Numurkah Township - Flood protection design project.	This project will deliver detailed design and levee alignments for the proposed Numurkah flood levee system which will act to protect the township from riverine flooding from the Broken Creek.	\$270,000	\$103,334	\$83,333	\$83,333
Central Goldfields Shire	Flood	Maryborough flood study	This plan will determine the potential impact of flood events on the township of Maryborough (including potential dam break scenarios), assess potential mitigation options and guide the development of flood warning systems.	\$215,000	\$30,000	\$92,500	\$92,500
Wellington Shire Council	Flood	Briagolong Flash Flood Study	The Briagolong Flash Flood Study will determine flood extents, depths, heights and velocities for a range of flash flood events to improve land use planning, emergency response, awareness and infrastructure planning.	\$75,000	\$25,000	\$25,000	\$25,000
Women's Health Goulburn North East (WHGNE)	All Hazards	Long term disaster resilience - identifying protective factors for men, women and volunteers	Researching long-terms disaster resilience will identify protective factors and inform individual and community resilience in future disasters. Interviews with men, women and volunteers, decades after disaster experience, will capture reflections.	\$277,078	\$139,448	\$137,630	
Yarriambiack Shire Council	Flood	Warracknabeal Township Levee Construction	Warracknabeal is at risk of flooding, with up to 55 buildings potentially flooded above floor. This project is for construction of a levee system which would reduce this to 1.	\$1,100,000	\$367,500	\$50,000	\$682,500
City of Melbourne:- Arts House	All Hazards	Refuge 2017	Refuge is an interdisciplinary project that implements the role of cultural organisations and artists in collaboration with emergency services in preparing the community and building resilience for climate related disasters	\$155,000	\$125,000	\$30,000	
East Gippsland Shire Council	All Hazards	Strength to strength - embedding resilience into planning for at-risk communities	Embedding disaster resilience into broader place-planning for at-risk communities, ensuring that all planning and community capacity building considers and responds to the need to prepare and mitigate disaster events.	\$146,000	\$73,000	\$73,000	
Central Goldfields Shire	Flood	Construction of Dunolly flood mitigation works.	The project will involve constructing a flood (contour) drain and flood retarding basin.	\$300,000	\$100,000	\$100,000	\$100,000
City of Greater Geelong	Flood	Electronic Road Closure Flood Warning System for the Rennie St Floodway, Lara	Supply and installation of an electronic warning system for the Rennie Street Floodway	\$52,000	\$20,000	\$16,000	\$16,000
Department of Environment, Land, Water and Planning.	Bushfire	Management of bushfire at the urban-rural settlement edge	Investigate and identify best practice approaches to urban edge treatments to help mitigate the effects of bushfire, including grassfire, for communities at the urban-rural settlement edge.	\$105,000	\$55,000	\$50,000	

Organisation	Hazard/Risk	Name of Project	Description	Project Cost 2016-17 \$	Applicant contribution	NDRGS Funds sought	State funds Sought
CSIRO Land & Water	Bushfire	Best practice design guide for residential building in Bushfire prone areas	The project integrates existing research knowledge and understanding to create a best practice guide for the design and maintenance of residential buildings in bushfire prone areas	\$336,178	\$168,236	\$167,942	
Hume City Council	All Hazards	Learn and Prepare - English and Emergencies Project	Development of an interactive learning package relating to emergencies aimed to be delivered through English as An Additional Language (EAL) classes.	\$28,500	\$16,000	\$12,500	
Gannawarra Shire Council	Flood	Quambatook Township Flood Mitigation Works	Construct sections of permanent levee bank to help protect the town in the event of a 1% AEP flood as per recommendations of the Quambatook Flood Management Plan	\$504,000	\$254,000	\$125,000	\$125,000
Scotsburn Community Recovery Committee auspiced by Moorabool Shire Council	Bushfire	Building Community Resilience after the Scotsburn Fires	The project will see a group of community champions attend fire preparedness training over a six month period and will include the development of a fire game to promote awareness and preparedness to the community.	\$60,000	\$30,000	\$30,000	
East Gippsland Shire Council	Flood	Flood preparedness and Community resilience building.	To work with communities to develop strategies to activate the signs to warn motorists using the identified high risk roads. To implement strategic signage on identified high risk roads.	\$55,610	\$27,200	\$14,205	\$14,205
Loddon Shire Council	Flood	Boort flood mitigation construction.	Construction and upgrading of flood levees and flood mitigation devices in the township of Boort.	\$501,000	\$167,000	\$167,000	\$167,000
Australian Red Cross Society	All Hazards	RediCommunities: Community-led Disaster Resilience in Rural and Peri-urban areas	Multi-agency and multi-stakeholder approach to community-led disaster resilience in high risk areas of Victoria.	\$176,670	\$50,400	\$126,270	
Mitchell Shire Council	Flood	Sunday and Dry Creeks Regional Flood Study	Identify flood hazard and risk in flood affected areas within both the Sunday and Dry Creek Valleys	\$225,000	\$45,000	\$90,000	\$90,000
City of Ballarat	Flood	High Flow bypass Channel, Miners Rest	A bypass channel to the south of Miners Rest will reduce floodwaters through Miners Rest from the Burrumbeet Creek. This project can protect 35 properties in the 1% AEP flood.	\$90,500	\$45,250	\$22,625	\$22,625
Alpine Shire council	Flood	Great Alpine Road Flood Bypass	Upgrade a section of the existing Murray-to-Mountains Rail Trail to formalise its use as a bypass for road vehicles in the event of flooding resulting in closure of the Great Alpine Road between Myrtleford and Bright.	\$365,000	\$182,500	\$91,250	\$91,250
Swan Hill Rural City Council	Flood	Robinvale Township Levee Reconstruction	The reconstruction to current standards of an informal levee pushed up in the 1956 floods. Providing protection against 1% AEP river floods.	\$910,000	\$200,000	\$50,000	\$660,000
Pyreiness Shire Council	All Hazards	Building Pyreiness Shire Community Resilience	Pilot the implementation of the Building Pyreiness Shire Community Resilience Plan across the communities in the Shire's 2 major towns and 16 smaller ones and evaluate the effectiveness of that plan.	\$80,000	\$15,000	\$65,000	
Moyne shire Council	Flood	Cudjee Flood Investigation	The Cudjee Flood investigation will assess the model flood behaviour for a range of flood magnitudes providing improved land use planning, emergency response and community preparedness.	\$157,000	\$58,000	\$49,500	\$49,500
Central Goldfields Shire	Flood	Carisbrook Tullaroop Creek Additional Clearing	This project will involve clearing of obstructions and debris in Tullaroop Creek Carisbrook additional to previous clearing of the creek.	\$100,000	\$50,000	\$25,000	\$25,000
Royal Melbourne Institute of Technology (RMIT)	All Hazards	Building resilience and Inclusion amongst vulnerable populations through social media	This project examines how vulnerable persons and emergency management organisations use social media during disasters. It will create training resources on how to use social media to engage vulnerable populations.	\$275,695	\$138,827	\$136,868	
Women's Health In the North (WHIN)	All Hazards	Enhancing resilience and meeting the needs of marginalised groups in emergencies.	A disaster resilient community is one where people understand the risks [affecting] them and others... A national conference with leading researchers and practitioners will explore identified needs amongst marginalised communities.	\$271,558	\$135,837	\$135,721	
Frankston City Council	All Hazards	Emergency Preparedness Engagement Tools	Developing a suite of emergency preparedness engagement tools, a booklet, animated videos, interactive app and social media package, to raise awareness of local natural hazards and promote preparedness for emergencies.	\$236,945	\$122,718	\$114,227	
			<b>TOTAL</b>	<b>\$10,063,003</b>	<b>\$4,211,817</b>	<b>\$3,412,121</b>	<b>\$2,439,065</b>
